

Planner: Scott Vennell - Controller: Alistair Stewart

A bit damp, especially the grass but a nice temperature for a run on this flat but testing map. Thanks very much to Scott for tonight's courses enjoyed by those who ventured out ignoring the weather.

Next week the event is on Wednesday at the Epsom Campus, starting from the end of St Andrews Rd. This is the final event before Christmas so do come along and make it a great end to 2016.

WORLD MASTERS ORIENTEERING CHAMPS ENTRANTS, PLEASE NOTE, the Epsom Campus map is planned to be the model for the World Masters sprint events. This is no problem, but should we need to use a reserve map because of problems with our qualifier or finals sprint map there is a possibility that we may need to use the Epsom Campus map. Should this happen if you compete on the Epsom Campus next week you will be disqualified in WMOC. We will therefore also offer the option of a rogaine style event next week utilising the controls off the Epsom Campus map, plus a few extra road controls. If you are entering WMOC you may choose to run this instead of using the Epsom Campus map to ensure there will be no problem at WMOC.
